Summary

Full Stack Developer with 2 years of experience, recently back in France after two years in Canada, bringing strong drive to contribute to high-impact, innovative projects. Curious, enthusiastic, and proactive, I enjoy proposing ideas, collaborating with cross-functional teams, and building scalable, user-focused solutions.
Check out my **interactive resume** or visit my **website**.

Professional Experience

Integration Developer • Plusgrade (Montreal)

March 2024 – January 2026 (references available upon request)

- Integrated and updated partner interfaces using JavaScript, AWS, APIs, HTML/CSS, and SQL
- Customized the platform through configuration and development in a React & Groovy environment
- Automated internal workflows using Python, JavaScript (Google Apps Script), and AI-driven solutions
- Monitored, analyzed, and diagnosed test and production environments with Splunk to resolve incidents
- Collaborated with Product, QA, and Support teams in an Agile environment

Freelance Web Developer

January 2024 – February 2024 (references available upon request)

Project for OxCERT (Next.js / Tailwind / Notion API):
- Built a complete website from scratch using Next.js and Tailwind CSS
- Integrated the Notion API to dynamically manage and update content

Project for Immobilière Franco-Suisse (Rails / Tailwind):
- Designed an internal Rails application to automate client follow-ups using Cron jobs and Action Mailer

Business Development Manager • L'Immobilière Franco-Suisse (Lyon)

September 2021 – December 2023

- Managed end-to-end client relationships, led the agency's business development and deployed internal tools

Education

Le Wagon • Full Stack Web Development Bootcamp

Lyon, France 2023 | RNCP Level 6 (Bachelor's degree)

- Intensive training: Ruby on Rails, SQL, JavaScript, HTML/CSS, Git/GitHub
- Final project: Chrome extension developed in a team

IMSI • Master's in Real Estate Services Management

Lyon, France 2020-2022 | RNCP Level 7 (Master's degree)
